PROFOAM™

INSULATING FOAM • 4-SEASONS

PROFOAM • GUN GRADE — Polyurethane foam suitable for various construction applications, such as filling cavities, sealing joints and penetrations, as well as thermal and acoustic insulation. Ideal for insulating around doors and windows. Adheres well to most materials, such as wood, concrete, masonry, stone, plaster, metal, PVC and polystyrene.

-25°C
UP TO +35°C

HIGH INSULATION PERFORMANCE
THERMAL & ACOUSTIC

LOW EXPANSION

PREVENTS THERMAL
BRIDGES

CONFORMS TO **ASTM C-1620**,
ASTM E-84, **UL 723** AND **UL 1715**

MADE IN EUROPE

PROFOAM™

FOAM CLEANER

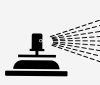

FOAM CLEANER — PRIME Foam Cleaner effectively removes uncured polyurethane foam. It cleans fresh foam both inside and outside the foam gun, as well as on surfaces such as window and door frames, tools, clothing, and more.

- 

EFFECTIVE CLEANING
- 

DISSOLVES AND ELIMINATES UNCURED FOAM
- 

MADE IN EUROPE

COMPATIBLE WITH FOAM GUN
- 

COMPATIBLE WITH SPRAY NOZZLE

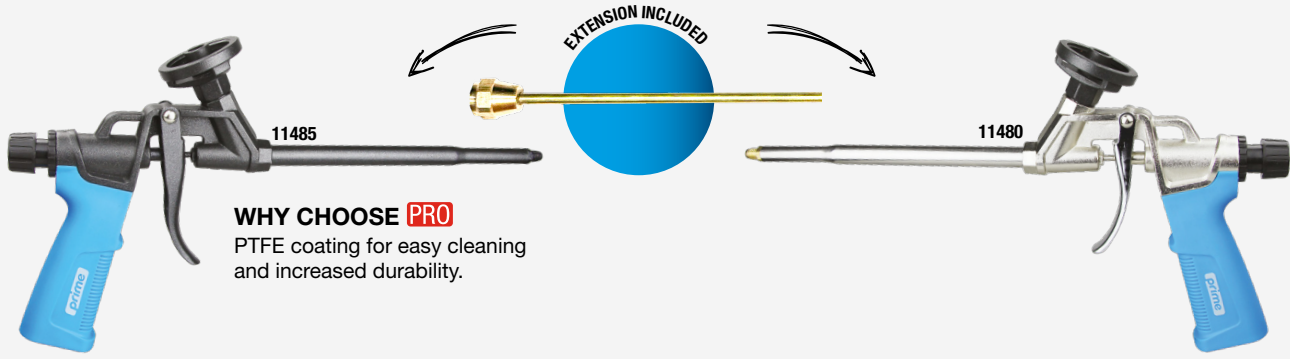

CODE	QTY/CAN	QTY/CSE	QTY/PALLET
91090  	460 ml	12	1728

FOAM GUNS

FOR POLYURETHANE FOAM

FOAM GUNS — Equipped with a 6" extension for hard-to-reach areas. They include a flow control nozzle that allows for precise application, giving you complete control over the amount of foam you apply.

CODE	DESCRIPTION
11485	Foam gun • Professional • 6" extension included
11480	Foam gun • 6" extension included
11489	12" foam gun extension

PROPAK™

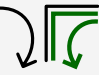

INSULATING FOAM SPRAY

PROPAK — One-component spray foam for insulating all types of hard-to-reach areas and surfaces where the use of traditional insulation materials is complicated. Adheres to wood, concrete, stone, plaster, metal, PVC, and polystyrene. Quick and convenient to use. The special spray applicator is compatible with most foam guns.

- 

GREAT COVERAGE POWER
Yields up to 16 sq ft with a thickness of 1"
- 

ELASTIC
- 

PREVENTS CONDENSATION
- 

PREVENTS THERMAL BRIDGES

PROLOCK™
SUBFLOOR ADHESIVE

PROLOCK — A solvent-based adhesive designed for subfloor installation and general plywood use. It provides a strong initial adhesion, a durable and flexible bond, while reducing nailing and the risk of squeaky floors.

Compatibility : Wood, engineered wood, particle board, OSB, wet, frozen or treated wood.

PREVENTS SQUEAKY FLOORS

INCREASES FLOOR STIFFNESS

COMPATIBLE WITH WET OR FROZEN WOOD

SOLVENT BASED

CONFORMS TO **ASTM D3498-19**; ADHESIVE FOR CLASS 1/8" SUBFLOOR, TYPE P/O
EXCEEDS **APA AFG-01, ASTM C557, CAN/CGSB 71.25M AND CAN/ CGSB-71.26M**

CODE	QTY/CAN	QTY/CSE	QTY/PALLET
98100  	828 ml	12	528

PROFIX™
SPRAY ADHESIVE • MULTI-PURPOSE

PROFIX • MULTI-PURPOSE — A very fast-drying spray adhesive with immediate aggressive tack, designed to hold a wide variety of materials firmly in place.

SUGGESTED USES

- Bonding foam to foam, fabric to foam, foam and fabric to wood, metal and many rigid plastics.
- Versatile lamination of lightweight, non-rigid materials such as fiberglass insulation, cork, leather, canvas, felt, etc., to metal, wood, a wide variety of plastics and many other surfaces.
- Fixing of fiberglass reinforcing fabrics and lightweight base materials.
- **Do not use on unsupported plasticized vinyls, or for laminating HPL, wood veneers or rigid metal coatings of materials.**

FINE AND CONTROLLED SPRAY

ADHERES TO : FOAM, FABRIC, WOOD, METAL, PLASTIC AND MORE

FAST AND AGGRESSIVE ADHESION

MADE IN CANADA

CODE	QTY/CAN	QTY/CSE	QTY/PALLET
98000  	426 g	12	1080

PROFIX™
SPRAY ADHESIVE • HIGH STRENGTH APPLICATIONS

PROFIX • HIGH STRENGTH APPLICATIONS — A spray contact adhesive formulated with high solids and high heat resistance, provides rapid drying, strong initial tack, and superior bond strength. It bonds exceptionally well to various surfaces, including HPL (High-Pressure Laminate), plywood, steel, and plastics.

SUGGESTED USES

- Lamination of high pressure laminate (HPL) on particle board and/or MDF.
- Lamination of a wide range of porous and non-porous materials, including HPL, melamine, wood veneer, decorative metals, plastic coatings, foam, fabrics, some rubbers and some plastics.
- Ideal for securing metal corner beads when installing drywall.
- **Not recommended for unsupported laminated vinyls.**

EXCELLENT ADHESION

ADHERES TO : HPL, PARTICLE PANELS, PLYWOOD, METAL, PLASTIC AND MORE

HIGH HEAT RESISTANCE

MADE IN CANADA

CODE	QTY/CAN	QTY/CSE	QTY/PALLET
98010  	481 g	12	1080

PROFIX™
SPRAY ADHESIVE • LIGHT-DUTY APPLICATIONS

PROFIX • LIGHT-DUTY APPLICATIONS — A low-VOC, HAP-free adhesive designed for low-stress bonding applications, such as installing fiberglass insulation, urethane foams, fabrics and plastic films to a wide variety of substrates.

SUGGESTED USES

- Ideal for bonding fiberglass insulation, urethane foams, padding, fabrics and felts, ductwork, plastic films, wood, rigid plastics, paper products and glass.
- **Not suitable for high pressure laminates (HPL).**
- **Do not use on PVC**

VERY WIDE SPRAY

ADHERES TO : FOAM, FABRIC, INSULATING MATERIALS AND MORE

FAST AND AGGRESSIVE ADHESION

MADE IN CANADA

PROPAIN™

MARKING PAINT FOR WOOD

PROPAIN for wood — Ideal for marking and identifying trees, logs, pallets, timber and prefabricated houses, both in forestry and industrial environments, it offers optimal and long-lasting visibility on a wide range of surfaces, even in difficult outdoor conditions.

PROMARK™

INVERTED MARKING PAINT

PROMARK — High-performance inverted paint, designed for construction site marking. Excellent adhesion on asphalt, concrete, gravel, grass and various other surfaces. Ultra-fast drying, optimal visibility, weather and wear resistance. Ideal for marking, signaling and demarcating work areas.

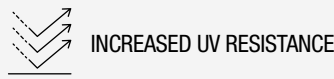

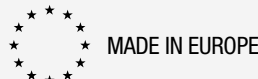

CODE	COLOR	QTY/CAN	QTY/CSE	QTY/PALLET

93129		500 ml	12	912

PROCLEAR™

4-SEASON PROTECTION VARNISH

PROCLEAR — A colorless protective spray varnish, ideal for protecting chalk or spray paint markings, thus extending their lifespan while improving their visibility.

CODE	QTY/CAN	QTY/CSE	QTY/PALLET
93200	500 ml	12	912

PBH

HIGH VISCOSITY POLYMER SEALANT

PBH — Formulated for exceptional adhesion to a wide range of surfaces, including aluminum, brass, steel, granite, marble, wood, concrete, and many plastics. This industrial-grade sealer cures quickly, even at low temperatures, and offers superior weather resistance. It can be painted over with most paints. Free of solvents and isocyanates, it will not yellow over time. It forms a skin in just 30 minutes and maintains its pristine appearance after more than 2,000 hours of UV exposure.

EXCELLENT ADHESION ON
ALMOST EVERY SURFACE

INCREASED UV RESISTANCE

CAN BE PAINTED

DOES NOT YELLOW

PROACOUSTIC™

ACOUSTICAL SEALANT

PROACOUSTIC tube — A synthetic polymer sealant designed to provide exceptional adhesion when installing polyethylene vapor barriers. It effectively reduces the sound transmission through drywall. It is compatible with EPS and ISO insulation, and also serves as a filling compound for elements subject to vibrations. Frost resistant, it adheres perfectly to most substrates.

MADE IN CANADA

EXCELLENT ADHESION
